JOIN IN

Come 'Light a Candle' for the health of the Hudson River, the people, the wildlife, and the communities who depend on it.

LOVE & PROTECT TOGETHER

Let's hold the EPA accountable to finish cleaning up toxic PCBs that poison our river. We still can't eat the fish or safely swim in the Hudson!

INSPIRE ACTION

Pics/vids of this gathering will be used to inspire others to light a candle for the river and share on social media.
